\*Guaranteed Stops will be placed at the Minimum Distance Level (MDL)

\*\*In the event that this day is NOT a business day, expiry shall normally be the last business day prior to this date.

- The auction of the UK 100 commences at 10.10 on the last trading day and shall cease as soon as reasonably practicable after 10:15 (London time) once the expiry value of the index has been determined.
- Expiry is based on prices of the component shares of the index determined by an intraday auction which starts at 13.00 CET (usually 12.00 London Time) on the electronic trading system Xetra.
- The settlement is determined by the average of the respective DJ STOXX Index Values calculated between 11:50 and 12:00 CET.
- ODL take the Exchange Delivery Settlement Price (EDSP) which is the arithmetic mean (rounded to one decimal) of the CAC 40 index value calculated and disseminated between 14:40 and 15:00(including the first index value disseminated after 15:00).
- Swiss Index futures are settled based on VIRT-X opening prices of the respective index component shares on the final settlement day (the Third Friday of contract month)
- The expiry of the Dutch Index is based on the average of the values of the AEX Index calculated at one – minute intervals between 14.30 and 15.00 on the last trading day. 24 hour dealing
- 24 hour dealing starts at 23.00 London time on Sunday until 21.15 London time on the following Friday. There is a gap between 21.15 and 21.30 when the index is not quoted.
- We do not quote the Japan 225 during the SGX trading break or between 21.15 London time and the opening of SGX
